SECTION - 3

Tender No.: TCIL/JBP/NIT/10-11/Civil/P&M/16

August 26, 2010

GENERAL (COMMERCIAL) CONDITIONS OF THE CONTRACT

3.1 PRICE APPLICABILITY

Prices in the Purchase Order shall remain valid for the period of delivery schedule or extended delivery schedule. In case of delayed supplies, after delivery period, the advantage of reduction of taxes/duties shall be passed onto the Purchaser and no benefit of increase will be permitted to the Supplier.

3.2 STANDARDS

The goods supplied under the contract shall conform to the standards mentioned in the Technical Specifications.

3.3 PATENT RIGHTS

The Supplier shall indemnify the Purchaser against all third party actions/claims of infringement of patent, trademark or industrial design rights arising from the use of goods or any part thereof.

3.4 PERFORMANCE SECURITY

3.4.1 Within 10 days of the Supplier's receipt of Letter of Intent (LOI)/P.O., the Supplier shall furnish a Performance Security for the amount of 10% of the contract/P.O value.

3.4.2 The proceeds of the Performance Security shall be payable to the Purchaser as compensation for any loss resulting from the Supplier's failure to complete its obligations under the contract.

3.4.3 The Performance Bond shall be in the form of Bank Guarantee issued by a Scheduled Bank situated in India and in the form provided by TCIL.

3.4.4 The Performance Bond will be discharged by the Purchaser after completion of the Supplier's obligations including any warranty obligations under the contract.

3.4.5 As regards validity of PBG, please refer to Special Conditions of the contract (Section-4).

3.5 INSPECTION AND TESTS

3.5.1 The Purchaser or its representatives or ultimate client shall have the right to inspect and test the goods for their conformity to the specifications. The Purchaser may also appoint an agency for this purpose. The technical specifications shall specify what inspection and tests the Purchaser requires and where they are to be conducted. Where the Purchaser decides to conduct such tests on the premises of the Supplier, all reasonable facilities and assistance like testing instruments and other test gadgets including access to the drawings and production data shall be furnished to the Inspector free of costs. In case the tested goods fail to conform to the specifications, the Inspector may reject them and the Supplier shall either replace the rejected goods or make alteration necessary to meet the specifications requirements free of cost to the Purchaser.

- 3.5.2 Notwithstanding the pre-supply tests and inspections, the material on receipt in the Purchaser's premises shall also be tested and if any material or part thereof is found defective, the same shall be replaced free of cost to the Purchaser.

If any material before it's taken over is found defective or fails to fulfill the requirements of the contract, the Inspector shall give the Supplier notice setting forth details of such defects or failures and the Supplier shall make the material good or alter the same to make it comply with the requirements of the contract and in any case within a period not exceeding 2 months of the initial report. These replacements shall be made by the Supplier, free of the all charges, at the site(s).

- 3.5.3 As regards Inspecting Authority and other details please refer to Special Condition of the Contract (Section-4).

3.6 TRAINING (WHERE REQUIRED)

- 3.6.1 The Bidder shall provide training for installation and maintenance staff of the Purchaser free of cost, where required.

- 3.6.2 The Bidder shall specify in his bid the number of trainees, quantum of proposed training, pre-training qualifications required of the trainees and the duration of the proposed training required.

- 3.6.3 The Bidder shall provide all training materials and documents and aids.

- 3.6.4 Conduct of training of the Purchaser's personnel shall be at the suppliers' plant and/or on-site in assembly start-up operation, maintenance and/or repair of the supplied goods.

3.7 WARRANTY

- 3.7.1 The Supplier shall give warranty that goods to be supplied shall be new and free from all defects and faults in material, workmanship, and manufacture and shall be of the highest grade and consistent with the established and generally accepted standards for materials of the type ordered and shall perform in full conformity with the specifications and drawings. The Supplier shall be responsible for any defects that may develop under the conditions provided by the supplier and under proper use, arising from faulty materials, design or workmanship such as corrosion of the equipment, inadequate contact protection, deficiencies in circuit design and or otherwise and shall remedy such defects at his own cost when called upon to do so by the Purchaser who shall state in writing in what respect goods are faulty. This warrantee shall survive inspection or payment for, and acceptance of goods, 12 months after the goods have been taken over.

However the warranty period specified if any, in the Special Condition of Contract (Section – 4) the same shall rule.

- 3.7.2 If it becomes necessary for the supplier to replace or renew any defective portion/portions of the equipment under this clause, the provisions of the clause shall apply to the portion/portions of equipment's replaced or renewed or until the end of the above-mentioned period of twelve months, whichever may be later. If any defect is not remedied within a reasonable time, the Purchaser may proceed to get the work done at the Supplier's risk and expenses, but without prejudice to any other rights which the Purchaser may have against the Supplier in respect of such defects.

- 3.7.3 Replacement under warranty clause shall be made by the Supplier free of all charges at site including freight, insurance and other incidental charges.

3.8 CHANGE ORDERS

- 3.8.1 The Purchaser may at any time by written order given to the Supplier make changes within the general scope of the contract in any one or more of the following:-
- a) Drawings, designs or specifications where goods to be furnished under the contract are to be specifically manufactured for the Purchaser.
 - b) Method of transportation or packing.
 - c) Place of delivery.
 - d) Services to be provided by the supplier.
- 3.8.2 If any such change causes an increase or decrease in the cost or the time required for the execution of the contractor, an equitable adjustment shall be made in the contract price or delivery schedule or both and the contract shall accordingly be amended.

3.9 SUB-LETTING

The Bidder cannot assign or transfer and sub-contract its interest/ obligations under the contract without prior written permission of the Purchaser.

3.10 LIQUIDATED DAMAGES

- 3.10.1 The date of the delivery of the goods stipulated in the acceptance of tender should be deemed to be the essence of the contract and the delivery must be completed not later than the dates specified therein. Extension in delivery period will not be given except in exceptional circumstances. Should, however, deliveries be made after expiry of the contract delivery period and accepted by the consignee, such deliveries will not deprive the Purchaser of the right to recover Liquidated Damages.
- 3.10.2 In case the Supplier fails to supply the material against the order, the material shall be procured from other suppliers at the cost and risk of the Supplier and the excess money will be recovered from any dues of the party.
- 3.10.3 For late supplies, as liquidated damages, a sum equal to 2% of the price of any goods not delivered or total order value in case where part delivery is of no use to a Purchaser, for a week or part of a week subject to maximum limit of 10% of the total order will be recovered from the Supplier. The Purchaser also reserves the right to cancel the order in such cases and forfeit the EMD/Performance Bank Guarantee and may also debar the Supplier for future purchases.
- 3.10.4 L.D. can be recovered from any dues of the Supplier.

3.11 ARBITRATION

3.11.1 For Indigenous Bidders

In the event of any dispute arising between TCIL and the Supplier in any matter covered by this contract or arising directly or indirectly therefrom or connected or concerned with the said contract in any manner of the implementation of any terms and conditions of the said contract, the matter shall be referred to the Chairman & Managing Director, TCIL who may himself act as sole arbitrator or may name as sole arbitrator an officer of TCIL notwithstanding the fact that such officer has been directly or indirectly associated with this contract and the provisions of the Indian Arbitration and Conciliation Act, 1996 shall apply to such arbitration. The supplier expressly agrees that the arbitration proceedings shall be held at New Delhi.

3.11.2 Foreign Bidders

Any dispute or differences arising out of the contract which cannot be amicably settled between the supplier and the purchaser shall be decided as per arbitration rules of International Chamber of Commerce, Paris. The decision of the arbitrators shall be final and binding on the parties hereto.

- 3.11.3 In case any supplier wants to take the dispute to a court of law after arbitration award as aforesaid, it is clearly understood that only courts in Delhi shall have the Jurisdiction.

3.11.4 In case of Public Sector Undertaking/Government Departments

In the event of any dispute or difference relating to the interpretation and application of the provisions of the contracts with any Public Sector Undertaking / Government Department, such dispute or difference shall be referred by either party for Arbitration to the sole Arbitrator in the Department of Public Enterprises to be nominated by the Secretary to the Government of India in-charge of the Department of Public Enterprises. The Arbitration and Conciliation Act, 1996 shall not be applicable to arbitration under this clause. The award of the Arbitrator shall be binding upon the parties to the dispute, provided, however, any party aggrieved by such award may make a further reference for setting aside or revision of the award to the Law Secretary, Department of Legal Affairs, Ministry of Law & Justice, Government of India. Upon such reference, the dispute shall be decided by the Law Secretary or the Special Secretary / Additional Secretary, when so authorized by the Law Secretary, whose decision shall bind the Parties finally and conclusively. The Parties to the dispute will share equally the cost of arbitration as intimated by the Arbitrator.

3.12 RISK PURCHASE

- 3.12.1 In the event of Supplier's failure to execute the contract to the satisfaction of the Purchaser, the Purchaser reserves the right:

- (a) to reject any part of the Contract executed and withhold payment for such portion of the Contract till such time the defects are rectified to the satisfaction of the Purchaser.
- (b) to terminate the Contract by giving 2 weeks notice in writing without assigning any reason and to get the Contract executed by other agency at the risk and cost of the Supplier.

3.13 APPLICABLE LAWS

This contract shall be interpreted, construed and governed by the laws of the Republic of India and the parties hereby submit to the exclusive jurisdiction of the Court and to all Courts having jurisdiction in appeal therefrom.

Any dispute in relation to the contract shall be submitted to the appropriate Court of the Republic of India for determination. The parties to the contract shall continue to fulfill their respective obligations under the contract during the currency of the contract pending the final decision of the Court.

3.14 GENERAL LIEN

Whenever under this contract any sum of money is recoverable from and payable by the Supplier, the Company shall be entitled to recover such sum by appropriating in part or in whole the security deposit of the Supplier, if a security is taken from the Supplier. In the event of the Security being insufficient or if no security has been taken

from the Supplier, the balance or the total sum recoverable, as may be, shall be deducted from any sum due to the Supplier or which at any time thereafter may become due to the Supplier under this or any other contract with the Company. Should this sum be not sufficient to cover the full amount recoverable, the Supplier shall pay to the Company on demand the remaining balance due.

3.15 PACKING

The supplier shall ensure that the Goods/Equipment is securely and adequately packed to ensure safe arrival at the destination fully withstanding all hazards such as rough handling etc. during transit.

3.16 REPLACEMENT OF DEFECTIVE EQUIPMENT

3.16.1 If any equipment or any part thereof, is found defective or fails to meet the requirements of the contract before it is accepted TCIL shall give the Supplier a notice setting forth details of such defects or failures and the Supplier shall forthwith arrange to set right the defective equipment or replace the same by the good one to make it comply with the requirements of the contract. This in any case shall be completed within a period not exceeding one month from the date of the initial report pointing out the defects. The replacement or rectification shall be made at site by the Supplier free of cost. Should the Supplier fail to do the needful within this stipulated time frame, the purchaser reserves the right to reject the equipment in full or in part and get it replaced at the cost of the Supplier. The cost of any such replacement made by the Purchaser shall be deducted from the amount payable to the Supplier against this purchase order.

3.16.2 If any equipment or part thereof is lost or rendered defective during transit, pending settlement of the insurance claim, fresh order shall be placed on the Supplier for such loss or defective equipment and the Supplier shall arrange to supply the same within three months of such order at the same prices and on the same general terms and conditions as mentioned in this purchase order.

3.17 FORCE MAJEURE

ELECTRONIC SENSOR CONCRETE PAVER FOR CEMENT CONCRETE ROADS

- It should have Electronic – Over-Hydraulic forward and reverse steering and control system for remote grade sensor
- It should have Electronic Over Hydraulic forward and reverse steering and control system for remote grade sensor. It should have control panel with monitor gauges and Hydraulic elevation jacks.
- It should be equipped with crawler tracks or foam –filled rubber floatation tires.
- Finishing/Texturing assembly should be able to travel transversely across the width of the concrete slab. Carriage speed be variable up to 180-220 fpm.
- It should be able to give High precision cylinder finisher pavement for concrete slabs for road project.
- It should have vibrating finishing cylinder bracket for compaction and finishing.
- It should be able to facilitate concreting with finishing width from 3.6 Meters to 12.6 Meters.
- It should be able to give finishing output up to 150 to 250 M² / hour. (According to site condition)
- It should have special undercarriage arrangement to spread the concrete to level, the vibrating arrangement to compact and finish the concrete to the grade.
- Frames should be made from welded steel panels in standard length so that these can be bolted/joined together according to the size of the slab width (3.6 m to 12.6 m)
- It should have single point control from electronic over-hydraulic console to control the forward and reverse movement of the finishing assembly and the traveling unit.

PRIME MOVER

15HP, 1440 RPM, Electric Motor for fix consol.
HP/7.5 HP/10 HP Gear Motor for under carriage.

HYDRAULIC OIL CAPACITY

Fix consol : 150 to 200 liters.

FINISHING ASSEMBLY

Vibrating finishing cylinder bracket
Cylinder : 10 inch diameter, 4 ft long. (1.22 Meters.)
Auger 10 inch diameter (Extra long)

It should have compatible hydraulically powered traction system for smooth movement of the whole unit. For this and leveling purpose it should have suitable manually adjustable heavy duty mechanical jacks for maintaining the machine level.

- Leveling screws (rail) jacks should be provided to level the rails on which the machine moves to maintain the smoothness of surface & to avoid the irregular paving.

HIGH FREQUENCY POKER VIBRATOR

It should have Electrically high frequency poker vibrator are provided on the mobile assembly to stir the concrete to remove any air bubbles if present in the mix and thus reduce porosity.

TEXTURING ASSEMBLY

It should have 8 to 12 ft. wide with 4 to 6 in. long wire tines spaced to meet specification requirements.

CURING ASSEMBLY

It should have curing assembly of 700 to 900 liters capacity and Reservoir, 6.3 gpm pump with electric motor, pump and controls, includes spray bar, wind-shield and work platform.

For length variability, a suitable and easy arrangement for quick connection and change in length should be provided.

It should have hydraulically powered traction system.

Change in above specification to the extent of 5% is permissible.

It should have proper towing arrangement and tool box.

Commissioning shall be done by your staff which should include initial training to our staff till they are able to efficiently operate by themselves.

WMM (WET MIX MACADAM) PLANT WITH COMPATIBLE GENERATOR SET

Capacity 100 tph.

Aggregate feeder- 4 bins.

Each of 4-bins of cold aggregate feeder should be fitted with a radial gate (easily operatable by a hand wheel) and an auxiliary belt feeder driven by a shaft mounted helical gear box and a DC motor. Gate opening ones set as per agg. Size, then flow of each agg. Regulated from control panel by their motor speed control in auto mode according to desired set percentage of agg. gradation in mix design.

Side rubber skirt on auxiliary feeders should prevent material spillage and closely spaced straight rollers should really help prolong belt life.

Bin vibrator provided on dust bin wall should ensure easy down flow of dust when wet due to moisture. Gathering conveyor driven by an AC motor through helical gear collects all four size aggregates from their respective aux. feeders and transfers the same on to single deck vibrating screen which rejects over sizes. A scrapper should be fitted at discharge end bottom of gathering conveyor to keep the belt neat and clean when wet dust sticks the belt.

Vibrating screen

Vibrating screen should remove over size aggregates received from cold bin feeder thereby helping damage of slinger conveyor belt.

Conveyor belt

Rubber conveyor belt on cold bin aggregate feeder, slinger conveyor and load out conveyor should be $\frac{3}{4}$ -ply, M-24 grade of standard company make only like MRF / Dunlop. High speed slinger conveyor throws the cold wet aggregate into Pugmill. A load cell type belt weighter should be mounted under slinger belt to measure agg. Flow rate which is displayed digitally in Tons/hour on control panel.

Pug mill unit

Twin shaft design for continuous and homogenous mixing of aggregates, water and additive material is to be mounted on a sturdy chassis. Extra heavy duty gears and anti friction bearing pedestals are to be provided for smooth operation.

2- Nos of top covers are to be provided on mixer for safety and no dust emission during production. Wear resist cast alloy steel paddle arms and dihard tips are to be provided to give long life and considerably bring down maintenance cost.

Water storage tank

Water storage should be fitted with best quality standard pump and meter to transfer exact quantity of water to pug-mill unit. The mix discharge from pugmill be transferred by an incline load out conveyor to mix storage silo with hydraulically operated clam shell gate to provide surge capacity while changing trucks and also controls any segregation in mix. Load out conveyor along with wet mix storage silo.

The mix discharge from pugmill be transferred by an incline load out conveyor to mix storage silo with hydraulically operated clam shell gate to provide surge capacity while changing truck and also controls any segregation in mix.

Control panel

Fully computerized panel to be provided with or board electric power console distribution, switch board and fully automatic process. A software which is user friendly to ensure top most performance is to be provided. Aggregate gradation is controlled automatically on control panel & aggregate feeding rate in km/minute and Tons/hour are to be displayed digitally along with total tons by totalizer. Cabin should be fabricated with MS structural frame and cladding is done by sheet metal for perfect weather proof. Glass windows with rubber seals to provide dust proofing and complete view of entire plant to operator to be provided.
